C **Circle the correct quantifiers to complete the paragraph.**

Today I read a newspaper article about environmental problems. The first problem is that there are **fewer / too many** (1) regular cars on the road and **not enough / less** (2) hybrids. The second problem is that our towns and cities need to give us **more / too many** (3) recycling bins so that **too many / more** (4) people will recycle glass, metal, and paper. The writer also believes that there is **not enough / too much** (5) e-waste in our landfills.

But the news isn't all bad. One good thing is that our shopping habits are improving. People are starting to buy **less / fewer** (6) plastic bottles, and we are also using **more / less** (7) cloth shopping bags. Another good thing is that people are beginning to understand that CFLs are good for the environment because they use **less / not enough** (8) energy than regular lightbulbs.
